 WHY THIS ETF?

Broad EM Access
Single ticker exposure to ~2,800 companies across 24 emerging economies.

Low-Cost, Passive
0.09% expense ratio — one of the cheapest broad EM index funds available.

Full Market-Cap Spectrum
Includes large-, mid- and small-cap names, not just mega-caps.

Growth Diversifier
Complements U.S.-only portfolios with non-U.S. growth exposure.

 INVESTMENT OBJECTIVE

The fund seeks to track the investment results of the **MSCI Emerging Markets Investable Market Index (IMI)**, providing long-term capital appreciation through broad, low-cost exposure to emerging market equities across the full market-cap spectrum.

GLOSSARY — KEY TERMS ON THIS PAGE

NAV Total Return

Performance based on the fund's net asset value, reflecting the value of underlying holdings.

Market Price Return

Performance based on the fund's exchange-traded price, which can differ slightly from NAV.

Beta

Sensitivity to the benchmark. 0.81 means the fund has historically moved slightly less than its index.

Std. Deviation (3Y)

A measure of how much returns have varied over the past 3 years — higher means more volatility.
